> J. H. LEAL, M. D. READ THE FOLLOWING: SATISFACTORY.

SAN GABRIEL, April 20, 1874.

My little boy, over two years old, has suffered terribly for more than a year from obstruction of the URINARY organs. All means of relief seemed unavailing, until I was advised to consult with Dr. LEAL of Los Angeles. After a critical examination he found and removed a stone from the uretha weighing five grains. Immediately relief followed, and my child is now well.

W. J. JONES. Gratitude.

SAN GABRIEL, March 14, 1874.

To the Afflicted.

EXCHANGE HOTEL,
WILMINGTON, March 30, 1874. }
Having suffered severely with chronic inflammation of the eyes, I had determined to
go to San Francisco for treatment, when I was
referred to DR. LEAL, of Los Angeles. Under
his care for a single week my eyes are perfectly
well, and now my sight is better than it has
been for the past ten years.

HERALD PAMPHLET [NEW EDITION.]

LOS ANGELES COUNTY, CALIFORNIA.

Its Agricultural, Manufacturing and Mineral Resources-Its Geographical and Commercial Positions-Its Harbors, Rattronds and Railroad System Statistics Relating to Cilmate, Soil, Products, Etc.

PRICE. - - - 15 Cents.

This edition contains thirty-two pages of double column matter, every article of which is descriptive of some thing or some part of Los Angeles valley. The following are the titles to the leading articles: "Los Angeles County and Los Angeles Valley;" "The Southern Pacific Railroad;" "The Los Angeles and Pacific Rallway;" "Our Railroad Wants;" "Steamers, Rail and Stage;" "The Assessor's Figures," "Spadra and the Surrounding Country," "The El Monte District," "Los Nietos," Wilmington," "Anaheim," "San Fernando," "Centinela Colony," "Compton," "The Tustin Settlement," "Santa Ana," "Cienega and La lona," "Westminster Colony," "Semi Tropical and Other Fruits," "Fruit Diging Works," "What Grains Flourish Here," "The San Gabriel Valley," "Potatoes in Los Ange les Valley," "San Bernardino County," 'Mines in Los Angeles County," "Mines in San Bernardino and Inyo Counties," "Mar ble Discoveries," "Petroleum Oil," "Climatic," "Fuel, Water, Gas;" "Banks and Commerce," "Public Library," "Schools in Los Angeles County," "Churches," "Sea Bathing." Besides these there are many other articles of equal interest. This pamphlet contains more reliable information concerning semi-tropical California than can be found in any other publication. It will be sold at fifteen cents per copy-the cost of publication.

#### The Two Companies.

A number of journals in this State -among them the Express, of this city-are finding fault with the State Grange for urging Congress to place the Southern Pacific Railroad Company on equal terms with the Texas Pacific Railroad in the Government osidy bill. The argument is that if the Southern Pacific is given the aid which is asked for by the Texas Pacific, the road of the latter company will never reach this coast, and we shall, in consequence, lose a competing line. Assuming the correctness of the premises, we do not believe the predicted result could be attained, even though the Texas Pacific received a liberal subsidy and the Southern Pacific nothing. If the Government aids Scott and refuses to aid Colton and HUNTINGTON, the Southern Pacific will dispose of their road and route to the Texas Pacific, which is guaranteed assistance, and we shall have lost the competing road and prolonged the completion of the muchdesired Southern overland railroad. That such will be the effect of refusing aid to the Southern Pacific and awarding it to the Texas Pacific, must be apparent to every practical mind. This result is precisely what the people of Southern California wish to avoid. The people of Arizona and of Southern California want a Southern overland railroad, and they want it at the earliest possible moment. There is another very important feature in the case which is worthy of consideration. Let us suppose that Scott builds the entire road, what may be the result, so far as trade is concerned? By a little judicious discrimination, he can throw the entire trade of Arizona Eastward. It would be to his interest to do it, and interest is the lever that moves railroad corporations as well as individuals. Suppose the Southern Pacific Company build one half of the road-the Western halfit will be their interest to discriminate in favor of the Arizona trade, in order to throw it over their road, and this will be so much gained to the merchants and farmers of California. These are practical views-the only views that are worth anything in business-and they should be looked at carefully and considerately. The question of a competing line cannot enter into the agreement, because there will be no competing line. It may be set down as a fact that Scott will build no farther West than he meets a road advacing East. He will either purchase that road or join his with it. The time in which we shall have a Southern overland road will be greatly shortened by inducing Scott to commence building West and the Southern Pacific to commence building East. The considerations we have named are the arguments which induced the State Grange to ask Congress to give the Southern Pacific an equal share with the Texas Pacific of whatever subsidy may be granted. The fact that all Southern California regards the early completion of a Southern overland road as an all-important auxiliary to the rapid development and permanent prosperity of this portion of the State, is all that need be said in the way of explaining of a contract entered into in Novemgage in building it, and why we are willing that Congress should aid one and all of them in pushing ahead the

The case of Eares, who was indicted for embezzlement, came up in the County Court yesterday and was set for trial February 9th.

#### "The Railroad Question.

The Star of yesterday morning con-

Question," which is so unreasonable pettifogging in its tone and character that one might be excused for supposing it a leader transplanted from the and untruthful attack on Congress-Chamber of Commerce and an effort Of the attack on Mr. LUTTRELL nothing need be said more than he is not as charged "the deadly foe of the Railof their rights. When to be this is to railroad company of bad faith, be the enemy of a railroad company, is such an enemy. The statement that the "Chamber of Commerce rush off half cocked," may be disposed of in a few words. The Chamber of Commerce have offended to this extent the Southern Pacific Railroad Company shall fulfill their contract made with the people of this city and county, and they have protested against a violation of that contract. If this is "to rush off half cocked" the people of this city have reason to congratulate themselves on having a Chamber of Commerce that rushes off half cocked. Now let us look at the evidence on which the Chamber of Commerce based their conclusion that the Southern Pacific Railroad Company intended to violate their contract by changing the route of the road. The "manly, straightforward letter from CHAS. CROCKER" does not amount to much

when read in connection with the bill which his company is now asking Congress to pass. Here is the bill. Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Southern Pacific Railroad Company, a corporation organized under the laws of the State of California, is hereby empowered, subject and pursuant to the laws of the state of California, to change the I'ne of its road between Giroy and Tehachape Pass, so as to run by way of Pajaro, Salinas Valley and the Palonio Pass; thence to a point between Poso creek and thence to a point between Poso creek and Kern river, there connecting with the line as

neretofore established.
SEC. 2. That the Southern Pacific Railros Company is hereby empowered, subject an pursuant to the laws of the State of Califo pursuant to the laws of the State of California, to connect the main line of its road with a branch thereof running from Tehachape Pass, via Los Angeles, by constructing a railroad and telegraph line, commencing at a point on said branch road near the town of San Bernardino; running thence, via Cajon Pass, to a point on said main line of its road at or near the boundary line between the counties of Kern and San Bernardino.

counties of Kern and San Bernardino.
SEC.3. That the right of way through the public lands be, and the same is, hereby granted to said company for the construction of the railroad and telegraph line mentioned in the preceding section of this act; and the right, power and an hority are hereby given to said company to take, from the public lands adjacent to the line of said road, water, earth, stone, timber, and other materials for the construction, maintenance and use thereof; said right of way is granted to said railroad to the extent of two hundred feet in width on each side thereof, where it may pass over the public lands, including all necessary grounds for stations, buildings, workshops, counties of Kern and San Bernardino. over the public lands, including all necessary grounds for stations, buildings, workshops, depots, machine-shops, switches, side-t eks, turn-tables and water stations.

SEC. 4. That said refload company shall be required to construct only twenty miles of ra Iroa I per annum upon the Los Angeles branch of its road; and shall be allowed until the first day of November, eighter hundred and eighty-five, in which to complete the entire road, including the main and branch lines thereof.

SEC. 5 That nothing in this act contained shall be construed to increase SEC. 5 That nothing in this act contained shall be construed to increase or diminish the quantity of public land heretofore granted to said company for the purpose of constructing its roads, nor in any respect to change the selection or location thereof; but the same shall be and remain, both as to quantity, selection and location, the same as if this act had not been passed, and the same as originally withdrawn, and shall be patented to said company or its assigns on building its raffroad on the route mentioned in the first section of this act, in the same manner and to the same extent as if it had built on the original route, as shown on the map filed by said company in the office of the Commissioner of the General Land Office on the third day of January, eighteen hundred and sixty-seven.

Now if our reading of this bill is cor-

Now if our reading of this bill is correct, and we think it is, it contains four distinct propositions. First, a change of the route of the Southern Pacific Road. Second, an extension of the time in which to build the road. Third, a retention of the land and other privileges which would inure to the company if they completed the road within the time specified by the now existing law. Fourth, a monopoly of the Tehachape route to this city. The second section clearly and explicitly asks that the company be permitted to connect the main line of their road with a branch thereof running from Tehachape Pass via Los Angeles. The idea of connecting the main line of a road with a branch is original, but this is an original bill. It is usual with railroad companies to connect branch roads with the main road but it was left to the Southern Pacific Company to hit on the novel plan of connecting their main road with branches. The third section of the bill carefully secures the company all the rights and privileges it has heretofore enjoyed. The right of way -four hundred feet wide-is securely hedged about. The fourth section is the one to which we call the particular attention of those of our citizens who have cherished the hope that the road would be completed between this city and San Francisco within the next two years. The company is required to build but twenty mlles per annum on the Los Angeles branch-Angeles-and shall have until 1885 to sentence. complete its entire road, including the main and branch lines thereof. The telegraph informs us that the twenty mile clause has been stricken out, but

That the completion as hereinbefore provided of said fifty miles of trunk read of said Southern Pacific Railroad Company shall be effected and accomplished within fifteen months after the deciaration and announcement, by the Board of Supervisors, of a favorable vote upon the questions herein submitted shall have been made; and the entire connection between the city of Los Angeies and the city of San Francisco shall be made through and to that portion of the road ex-

tending northerly from Los Angeles city, and as early as the obstacles to be overcome and the means and facilities of the company will flow, but in not exceeding five years from

tains an article headed "The Railroad This contract requires that the road shall be completed within five years in its deductions, so false in its charges, from its date or within three years so erroneous in its conclusions, and so from the present time, yet the company is now asking Congress to ignore this contract and extend the time of completing the road to 1885-seven columns of the Sacramento Record. years beyond the time agreed upon The article contains an unwarranted and ten years from this date. The same contract binds the company to man LUTTRELL, a misrepresentation | run the main line of the Southern Paof the object and purpose of the cific Road through this city, yet if we can understand Mr. Houghton's bill at special pleading on behalf of the it asks Congress to break this bond Southern Pacific Railroad Company. and permit them to run the main line of the road through Cajon Pass. In the light of the past and from the indications of the present we do not think road Company." He is the friend of the Chamber of Commerce have gone the people and the untiring and un- off "half cocked" and we do think compromising advocate and defender the people have cause to suspect the

# Mr. LTTRELL may be proud that he Bill to Protect Settlers upon the Pub-

lie Domain. WASHINGTON, January 24th.-Representative Luttrell has prepared and will to-morrow introduce a bill to proteet settlers upon the public domain of the United States; providing that and no more. They have asked that in all cases where railroad companies are permitted to change the location of their routes without changing the locus of the land granted and withdrawn for their benefit, all homestead and pre-emption settlements made on such lands prior to date of the respective land grants, shall be protected and allowed to be completed under existing laws. The bill, however, proposes that the railroad companies shall be permitted to select other lands equivalent to the area so involved, provided that in these lieu lands selection shall be confined to surveyed non-mineral public lands, situated within the limits of the respective withdrawal re-serves, and under the direction of the General Land Office.

#### Congressional News.

WASHINGTON, January 23d.-There seems to be a serious doubt about the admission of Pinchback to the Senate He is earnestly opposed on the ground that the President will consider it a recognition of the Kellogg Govern-

The caucus propositions are a square recognition of Kellogg or a new election. Men from Louisiana desire a Provisional Government until things are settled.

House.-The Committee on Pacific Railways have not yet agreed on a report concerning the Texas Pacific bill. Both the Texas Pacific and Southern Pacific have forces in the field manœuvering for position. The House sub-Committee's delay in acting was caused mainly by the absence of Barnum of Connecticut, and a desire to see what the Senate will do.

#### Important Land Decision.

WAHINOTON, January 24th.—The appeal from the decision of the Commissioner General of the Land Office in regard to the survey of the Rancho Los Prietos y Najalayegua, was to-day withdrawn by the attorney for the appellants. Instructions were sent to the Surveyor General of California to locate the grant North of Santa Barbara mountain. The appeal was withdrawn in consequence of a compromise between the grant claimants and mining interests.

Investigation of Contract and Finance Affairs.

WASHINGTON, January 24th .- Stanford of Kentucky, the leader of the small minority in the Pacific Railway Committee, favoring an investigation of Contract and Finance matters, etc., now purposes, if the subject can be got before the House, to advocate directing and empowering the Secretary of the Treasury to make an investigation, by means of three commissioners, during the recess of Congress; otherwise, he says, the Democratic majority in the next Congress will surely order it.

# Tom Scott a Little Ahead.

WASHINGTON, January 24th.-Senate Committee on Roads yesterday decided to report adversely to the South-ern Pacific bill and all others proposing Government subsidies except the Texas Pacific, which was laid over to

# EDUCATIONAL COLUMN.

[Edited by the Teachers of the Public School of Los Angeles county.]

# Selection of Books, 111933

What to read is one of the important questions of the day, especially as regards our young people, and yet it is surprising to see how very little attention is given to the subject by either parents or teachers.

So far as my experience goes, th majority are suffered to read whatever they please, or if any supervision is exercised, it is in the way of wholesale denunciation of all works that savor of fiction. Either course is fatal to the forming of a correct taste in the selection of books.

One permits too much, the other too little latitude. While vicious or trashy literature is to be avoided, as one would the plague, all fiction is not hurtful. On the contrary, it is, in proper quality and moderate quantity, healthful and necessary to the

growth and formation of young minds.

Indeed I should regard a child who did not relish one of Hans Christian Anderson's charming fairy tales as an unnatural specimen of humanity, enumerical specimen of humanity spec tirely too old and wise for me to comprehend. In fact not a child but a hangeling. Good, well written stories are to the mental nature what sweets are to the physical, a natural graving 1,000 Lemon that must be satisfied at proper times and in proper quantities. Young na- 100 Fig 2 " 2 " " ures require a certain amount of food for the imagination, and if they cannot have it openly, they will procure it secretly; often times at the expense of truth and integrity; thus making a sin of what at most might have been an error.

Our duty in the matter is by sympathy to secure the confidence of the young, that we may be able to form their taste and influence their choice of books, that ere long they may not only read and appreciate a work of fiction, but also any well written book

of travels, history or biography. tell my young people that good fiction is excellent in its place, but that like honey and other sweets, it must not be partuken of too often or too freely. also is the mind built up and strength- in one, two, three, four or five years, world we live in. The stars that tread, the herb of the field, the birds of the air and the fish of the sea, and last, though not least, those that depict the deeds and lives of the great and good in all ages. A genuine love of good reading is a blessing in many ways to the possessor. It provides resources that will cheer and lighten many an after hour. And while striving to induce a love for these things in the young minds committed to our charge, let us be eareful not to well up the field of knowledge, strive to make the path as smooth and pleasant as we can, for those who have but just begun to climb.

# CENTINELA

SIX MILES FROM LOS ANGELES.

The Home of the Orange and the Lemon.

# **AUCTION SALE**

TOWNLOTS -- A N D ---

WILL COMMENCE ON Monday, Feb. 15, 1875,

5. 10, 20 and 40 Acre Farms,

FIVE DAYS.

AT 12 O'CLOCK M.,

AND CONTINUE

The sale will take place on the Rancho. Parties desiring to purchase SHOULD BE ON THE GROUND a few days prior to the sale, in order to EXAMINE THE PROPERTY.

#### Title,

#### UNITED STATES PATENT. Situation.

"Centinela," with the addition of the "Sausal Redondo," contains 25,000 acres. The boundary of the Rancho commences three and a halfmiles from the city limits of Los Angeles, and extends to the Pacific Ocean.

#### Topography.

"Centinela" is made up of one broad, level, fertile valley of over twenty thousand acres, and beautiful fertile rolling hills near the

#### Soil.

The soil is an exceedingly fertile loam, and is, without exception, the richest and most productive in Southern California. Its vicinity to the ocean insures a crop without irrigation. Excellent wheet has been raised for the last two years upon the hills adjoining the ocean. This wheat field contains 1,000 acres and covers the lightest soil upon the Rancho. There is no alkali or barren land.

#### Semi-Tropical Fruits.

There are a few bearing orange and lime trees upon the Centinela, and the fruit they produce is of the largest and finest quality. There is an orchard containing 6,000 orange trees three years old, and 1,700 almond, lime and lemon trees. The almond, lime and lemon trees will bear fruit in 1875. The orange trees will bear in five years. There are 7,000 three-year-old orange trees in the nursery near the orchard. Fig. pepper and gum trees grow without irrigation. The entire or trees grow without irrigation. The entire or-chard can be taken care of by three men with six horses. The orchard will be kept undi-vided by the company to save the expense of each shareholder having a few trees to take care of. Each share will entitle the owner to about 15 trees in the orchard and about the same number in the nursery. The almond, lime and lemon trees will yield an immedi-ate return. In five years each orange tree will produce \$20 per annum, or \$300 per share for those now planted. There are flowers in the garden in bloom every day in the yea

### Sheep.

After the lambing season in January the flock of sheep will number about 14,000 and they will be kept undivided, to save expenses to the shareholders. This will give about thirty sheep to each share. The sheep will produce, in increase and wool, over \$2 each yearly, over expenses. They will be grazed upon outlying and unsold lands of the company. The "no fence" law is in force in Los Angeles county, to supply every lot with crystal, cool, sweet water.

Climate. The climate of the Centinela is, without exception, the finest and most equable in the world. It varies but little throughout the year. The mean temperature is about 60 deg. The mercury fails but little below 60 deg. in Winter and rises but little above 60 deg. in Summer. You sleep under one pair of blankets and with your bed-room window open every night in the year.

# Agriculture.

The soil of the Centinela is admirably adapted for all kinds of grain, vegetables and fruit.

# Water.

The Centinela creek rises upon the rancho and runs through the northern portion of the tract. It affords an abundance of clear spring water. The source of the Centinela creek consists of several natural artesian springs, showing that artesian water can be obtained by boring.

# The Town.

A square mile is laid off at an eligible point on the tract, with lots 25x140; avenue 100 fee and streets 80 feet wide. A stream of water can be brought in so as to supply every lot with crystal, cool, sweet

Provision will be made for a College and Farm School. A large lot will be set apart for each religious denomination. A block will also be given for the erection of a large hall by the different Fraternal, Grange and Temperance

Fare. Parties desiring to visit the land should take steamer from San Francisco to Los Angeles; fare. \$12. By inquiring at Temple & Workman's Bank, in Los Angeles, they will be directed to the Rancho.

#### Apply to Wm. H. MARTIN,

General Agent California Immigrant Union, 534 California street, San Francisco, bet. Montgomery streets; to TEMPLE & WORKMAN, Bankers, or Gen. SHIELDS, Los Angeles; or O. L. ABBOTT, Corresponding Secretary State Grange Immigrant Aid Association, Santa Barbara.

P. S.-A second sale will take place on the Bancho, commencing on MONDAY, the 8th of March, 1875.

Further information will be furnished by the officers and Directors of the Centinela Land Company of Los Angeles, who are:
F. P. F.TEMPLE, President; F.P. HOWARD, Vice-President; J. S. SLAUSON, Los Angeles County Bank, Treasurer; W. H. J. BROOKS, Sceretary; J. M. GRIFFITH, of Griffith, Lynch & Co., Los Angeles; General J. H. SHIELDS, Lot Angeles; O. W. CHILDS, Los Angeles; D. FREEMAN, on the Rancho, de2 W. H. J. BROOKS, Secretary.

#### ENDORSEMENT OF THE HON. J. ROSS BROWNE.

SAN FRANCISCO, November 28, 1874.

WM. H. MARTIN, General Agent California
Immigrant Union—Dear Sir:—I have just visited the "Centinela and Sausal Redondo"
Rancho, and driven overthe land described in
your advertisement. With all my experience
in the southern part of California, I have seen in the southern part of California, I have seen nothing to surpass this tract in fertility of soil, beauty of location, and advantage of easy access and salubrity of climate. For purposes of colonization, I know of no large body of land so near a growing commercial centre, in California or elsewhere, to equal it. No part of it is unavailable for farms, orchards or homesteads. It can be suddivided into lots ranging from five acres to several hundred acres and steads. It can be subdivided into lots rangin from five acres to several hundred acres and every acre of it can be made productive. Wate is abundant and convenient. The land I subject to easy irrigation; and I can vouch for the fact that it will produce anything that flourishes in Los Augeles or Santa Barbara countles. It is my confident opinion that the ratue of shares in this magnificent tract be quadruped within two years—such is be quadrupled within two immigration to the extraordinary indux of immigration to the vicinity of Los Angeles at the present time, vicinity of Los Angeles in your undertaking, Wishing you success in your undertaking I am, very truly yours, J. Ross Browns.
